Case 07-51

To Whom It May Concern:

I do not have any telephone service nor internet service capability at my residence. I have called the developers, L. M. Sandler & Sons to complain about this situation. They will not return my phone calls. I have lived at this residence for over four months and can not get an answer. My understanding is that the Sandler company is trying to sign a contract forcing me to use a bulk package service. I do not want to sign such a service and understand that this not legal anyway. Please help me and the other residents of Remington Park in Suffolk, Va. Solve this problem.
